Diversity Inclusion Training

Diversity Inclusion Training offers diversity inclusion training and certification for individuals and organizations. This training covers how to create a happy and thriving work environment for everyone by fostering diversity and inclusion as well as the actions that can undermine diversity and inclusion and create a toxic work environment.

Not only is a happy and thriving workplace fun for everyone, but it's also shown to be good for business. A large and growing body of research has found that a happy and thriving work environment leads to dramatic benefits for employers, employees, and the bottom line.

But did you ever wonder what makes a happy and thriving workplace? And why some are and why others are not?

In this course, we cover how to foster a diverse and inclusive organization and the many benefits that can result including a happy and thriving workplace for everyone. We also cover the actions that can undermine a work environment such as discrimination, harassment and bullying which can create a toxic work environment. Finally we explore how unconscious biases play a role in our judgement and can unduly affect even the most conscientious employee.

All organizations should put in place a diversity and inclusion compliance program to ensure that their staff and the organization as a whole are adhering to the industry standard norms to create a happy and thriving workplace. These training and compliance programs help ensure that workers are informed about diversity and inclusion as well as the challenges to them of discrimination, harassment and bullying and know how to address them properly.

Rollout Our Smart Training to Your Workforce in 5 Minutes or Less

How? Our training system is smart - *very smart* - and does almost everything for you. All you have to do is to email generic instructions to your staff. It is the same instructions for everyone and we've already pre-typed the instructions for you.

Have staff that doesn't have email? No problem, print off the instructions and give it to them as a piece of paper.

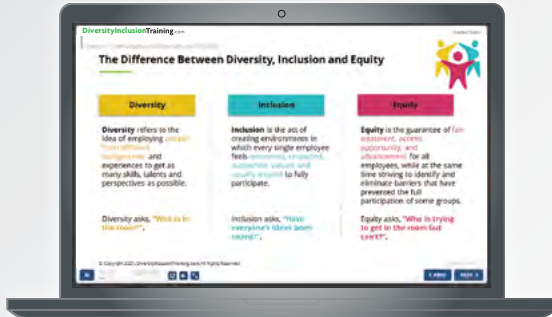

Once you provide the generic instructions to your staff you are done. The smart training system then takes over from there and trains, tests, generates certificates, emails you a copy of those certificates, and maintains a training log.

It can't get any easier.

- ✓ Our smart system utilizes a single shared multi-user login that eliminates the hassle of having to setup and manage multiple usernames and passwords.
- ✓ Everyone from your organization can log in from home or work (24x7) using the same shared login (no limit on simultaneous users).
- ✓ On passing the final exam, each individual is prompted to enter their name. The system then generates a PDF certificate for the individual and emails a copy of the certificate to the administrator for record keeping.
- ✓ The smart system maintains a detailed training log automatically for you.

The medical ethics course is **1 hour** long, self-paced, and generates a **2 year** certification upon completion.

Each employee receives their own certificate and wallet card immediately online upon successful completion of the training.
